Art Submission Requirements

ELECTRONIC ARTWORK:

We accept electronic artwork two ways, either on a disk (floppy, cd rom or DVD) or via e-mail. When sending artwork electronically, please follow the following guidelines:

1. PC based format.
2. All art must be prepared in either Corel Draw up through version X5 or Adobe Illustrator up to version CS6.
3. All Multi-Color artwork must be color separated, using PMS Spot Colors. Artwork submitted using CMYK or RGB, will incur additional art charges for conversion to Spot Colors.
4. All fonts must be converted to Curves (Corel Draw) or Outlines (Illustrator). We will reject any artwork that has not been converted.
5. Bitmap formats such as .BMP, .JPG, .TIF are not considered acceptable electronic art. Artwork must be in a vector based format to avoid additional art charges.
6. Please submit artwork to actual size or note correct print size on purchase order. If no information is submitted, order will not be processed for production.

ARTWORK WITH TINTS:

Although it may be possible to print various tones/tints of one color to create a second color or look, many times we find it necessary to separate the tone onto a separate screen. This is done in order to control the solids without harming the integrity of the TINTS. If this is needed, it will add an additional imprint color and will be invoiced accordingly. In order to better service and quote your needs, please submit artwork in advance for final price determination. When submitting artwork with tones, the tone/tint should not exceed a 40% tint.
